Focus

Content

Lighting is an application engineering science. Besides energy saving, there is something more than that one should expect from lighting. Well designed lighting creates an visual environment that makes us perform our visual tasks efficeincy, gives us visual comfort and also creates a appropriate, conductive visual ambiance.

Luminaires and lamps is a tool box which has to be scientifically & effectively used in lighting to derive all the desired benifits such as increased productivity & efficiency, minimised discomfort glare and excellent uniformity to provide visual comfort.

HPL has all the resources to provide customers well designed efficient luminaires for indoor commercial & domestic applications. With its well established R&D activities & experienced team of R&D engineers,sales setup, it is expected to meet the needs of customers for getting new & innovative lighting solutions
